Higher Education and Training  
**REPUBLIC OF SOUTH AFRICA**

# **MARKING GUIDELINE**

**NATIONAL CERTIFICATE (VOCATIONAL)**  
**LIFE SKILLS AND COMPUTER LITERACY**  
(Second paper)  
**NQF LEVEL 4**

**10-13 November 2020**

**This marking guideline consists of 27 pages.**

**INSTRUCTIONS TO MARKERS**

1. Markers are required to work out the answers to the question paper before the marking memorandum is discussed.
2. Accuracy errors are marked with a red /. Accuracy errors refer to spelling errors and omission/addition of text/numbers. The mark allocated for accuracy indicates the maximum marks that can be deducted for accuracy errors, for example, if 5 marks are allocated for accuracy, a candidate will only lose a maximum of 5 marks for accuracy, even if the number of accuracy errors exceeds five in that specific question.
3. Manipulation errors are marked with a blue x next to the corresponding manipulation number. Manipulation marks that are awarded for correct answers are indicated with a blue ✓ next to the corresponding manipulation number, for example, if 10 marks are allocated for manipulation, then numbers 1–10 must be written next to the blue x or ✓ in the same position indicated on the marking guideline.
4. The marks achieved for each question is written on the bottom right of the PRINTOUT for each question in the following table format:

Write the total possible mark in this space -

Write the student's errors made in this space-

Write the mark achieved in this space and circle the total mark

A	M	T
		○

5. The candidate's total mark per question is transferred to the cover of the examination folder next to the corresponding question number.
6. If a candidate handed in a PRINTOUT, but achieved ZERO for the question, then 0 (ZERO) is written on the cover next to the corresponding question number.
7. If a candidate did not hand in a PRINTOUT a line is drawn through the block next to the corresponding question number.
8. If a candidate handed in duplicate PRINTOUTS of the question (without striking it out/cancelling it), mark the question that would benefit the candidate and draw a line across the extra PRINTOUTS with the notation 'Duplicate'.
9. If a candidate handed in a PRINTOUT without an EXAMINATION NUMBER and a consistent watermark, the PRINTOUT must be marked and reported as an irregularity. Both the EXAMINATION NUMBER and a consistent watermark is required to ensure authenticity as per examination instructions.

10. If a candidate did not produce a PRINTOUT for QUESTION 2 (i.e. completed the merge process before/without printing the primary document) mark as follows:

- Mark the first PRINTOUT of QUESTION 3 as QUESTION 2, but penalise for merge fields not inserted. Indicate on the top of the PRINTOUT that this PRINTOUT was marked as QUESTION 2.

Mark the second PRINTOUT/letter of QUESTION 3 as QUESTION 3. The candidate must be awarded marks for all correct work in QUESTION 3 (including merged information on the first letter) to avoid the candidate being penalised twice for the insertion of merge fields.

11. If a candidate used the incorrect program to answer a question, for example MS Word instead of MS Access for QUESTION 9, marks must be awarded for accuracy (as well as upper case/lower case and letter spacing), but penalised for other manipulation. The candidate will lose all manipulation marks that are program specific, as this assesses the candidates' ability to use the specified program i.e. MS Word (QUESTIONS 1-3), MS Excel (QUESTIONS 4-7) and MS Access (QUESTIONS 8-10).
12. If a candidate produced an incorrect PRINTOUT (for example, a print screen image of QUESTION 8), marks must be awarded for accuracy and any manipulation which can be assessed from the given printout. The candidate will lose marks for the PRINTOUT and any other manipulation instruction which is incorrect and cannot be assessed from the PRINTOUT.
13. If a candidate does not use the specified font style, the candidate must be penalised unless the scripts are accompanied by a report indicating that the required font style was not available on the MS Office version used at that examination centre OR it is established by the marking team that the version indicated on the cover of the examination folder does not provide the specified font.
14. If an irregularity is detected during the marking process, the script must be marked and the irregularity recorded on the cover page of the script and on the mark sheet as per national examination instructions. An irregularity report must be completed.

**SECTION A****QUESTION 1**

MARK ALLOCATION:

ACCURACY	8
MANIPULATION	12
TOTAL	20

QUESTION NUMBER	MARK	ACCURACY
1.4	8	<p>Penalise ALL <b>SPELLING ERRORS, OMISSIONS AND ADDITIONS</b> (deduct ONE mark for every missing/additional word) in the document up to a maximum of 8 marks.</p> <p><b>NOTE:</b> Do not double penalise. Repeated errors must be penalised once only. Incorrect letter spacing, line spacing, upper case and lower case are penalised as manipulation errors.</p>

QUESTION NUMBER	NUMBERING	MARK	MANIPULATION
1.1	1	✓	Data source created (Penalise if the words 'FIELDNAMES and RECORDS are keyed in)
1.2	2	✓	Cambria, size 12 (both must be correct)
1.3	3	✓	MS Word: Header inserted MS Access: Table renamed
1.3	4	✓	EXAMINATION NUMBER and QUESTION correctly inserted i.e. MS Word: both are centred MS Access: used as table name (Accept with or without the word 'and')
1.4	5	✓	Uppercase/lowercase correct
1.4	6	✓	Letter spacing correct
1.5	7	✓	FIELDNAMES - uppercase
1.6	8	✓	Contents of data source – right-aligned
1.7	9	✓	Page orientation - Landscape
1.8	10	✓	Column width adjusted - All text visible
1.8	11	✓	Column width adjusted – Data for each record is displayed on one line
1.9	12	✓	Print data source from MS Access on ONE A4 page (Penalise if the document was not printed from MS Access)

1✓ Data source document created  
2✓ Cambria, 12

3✓ Header inserted OR Table renamed  
4✓ Exam no. Question no. inserted correctly (centred / table name)

5✓ Upper case/Lower case correct  
6✓ Letter spacing correct

Dear Student

- 1✓ MS Word
- 2✓ Footer inserted
- 3✓ Exam no. and Ques no. centred on 1 line
- 4✓ Tahoma, 12
- 5✓ Full justify – 1<sup>st</sup> two paragraphs
- 6✓ Today's date inserted (any format)

- 7✓ Uppercase/lowercase correct
- 8✓ Letter spacing correct
- 9✓ Line spacing correct
- 10✓ Spell check used – no spelling errors
- 11✓ Heading: Broadway, 16 (both correct)
- 12✓ Heading centred

## PROMOTING GOOD CITIZENSHIP IN TVET COLLEGES

Being a good citizen requires each one of us to be actively involved in our communities and work towards the betterment of our fellow citizens. As a student in a TVET college, you can bring about positive change in your community in so many different ways.

Awareness campaigns are therefore being conducted across the country's public TVET colleges under the theme: South Africa belongs to all who belong in it. The aim of these campaigns is to educate students about tolerance and being good citizens.

It is envisaged that these campaigns will lead students to understand that:

- 13✓ Sentence underlined
- 14✓ Double underline
- 15✓ Two columns created
- 16✓ Columns in correct position
- 17✓ Correct text in each column

- *A good citizen participates in the voting process.*
- *A good citizen lives in peace with all and helps to make the country a safe place to live in.*
  - *A good citizen takes care of the environment, recycles, reuses and reduces.*

- ✓ A good citizen preserves animal life and takes care of endangered species.
- ✓ A good citizen upholds the Constitution and the laws of the land.
- ✓ A good citizen understands that parenthood is a life-long commitment.

- 18✓ Correct bullet style (left column)
- 19✓ Correct bullet style (right column)
- 20✓ Left column - italics
- 21✓ Left column – right aligned
- 22✓ Right column – Palatino Linotype
- 23✓ Any picture inserted
- 24✓ Picture in correct position
- 25✓ Picture resized to fit document on ONE A4 page

- 26✓ Table –Borders correctly inserted
- 27✓ Table – 5 columns & 2 rows
- 28✓ Column heading - bold
- 29✓ Column heading – right aligned
- 30✓ 1st row – shaded
- 31✓ Shading correct
